Treeline, Inc. is one of Inc. Magazine's Top 5000 Fastest Growing Companies for 2008
Rankings to be announced in September 2008 issue

Wakefield, Massachusetts: July 29, 2008: Wakefield-based Treeline, Inc. today announced its debut on the annual Inc. 5000 ranking of the fastest-growing private companies in the nation. Rankings will be announced in the September 2008 issue.

Daniel S. Fantasia, Founder and President of Treeline, Inc. said, "Our rapid growth is a testament to our team's strength and the fact we are a purpose-built organization devoted solely and entirely to selling. Our unique business model, which is based on teamwork rather than individual achievement, has kept turnover significantly below the industry average and helped us become highly successful."

Daniel S. Fantasia founded Treeline, Inc. in 2001 with an exclusive focus on helping companies build world-class, high-output, sales teams. During the past seven years, Dan has partnered with hundreds of respected companies and thousands of top-tier sales candidates. Treeline has been consistently recognized by clients as a rapidly growing and innovative service partner for both contingency-based placement and sales outsourcing.

Under Dan's leadership, Treeline has achieved double- and triple-digit growth and profitability each year (400% in its first year) and has become widely recognized throughout the Northeast and beyond. Treeline's client roster to now includes 200+ high-profile regional and national companies. At present, Treeline employs 30 recruiters and will generate \$4 million in revenue this year, making it one of the largest of its kind regionally.

Dan has grown Treeline from a one man operation to one of the Area's Largest Executive Search Firms in 2007 and 2008. Also in 2007, Treeline was recognized for filling more positions than any other staffing company (among 40 firms) in Massachusetts. This year, Treeline was named as the #1 Best Place to Work (companies up to 100 employees) by the *Boston Business Journal*.

The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. To qualify, companies had to be U.S.-based and privately held – but not subsidiaries or divisions of other companies. They also had to meet minimum revenue requirements. For more about the Inc. 5000, visit www.inc.com.

###
